

# Sturminster Marshall Pre-School

Registered Charity No: 1026037

Ofsted URN; 144318

Affiliated to the Pre-School Learning Alliance

## 10.1 Working in partnership with parents and other agencies

We believe that families are central in all services we provide for young children. They are involved in all aspects of their child's care.

We work in partnership with local and national agencies to promote the well-being of all children.

### Families

- Parents are provided with written information about the setting, including the setting's safeguarding. Policies and procedures are on our website and can be requested at any time.
- Parents are made to feel welcome in the setting.
- Every effort is made to accommodate parents who have a disability or impairment.
- The expectations we make on parents are made clear at the point of registration.
- There is a clear expectation that parents will participate in settling their child at the commencement of a place, where this is not possible a clear plan will be made.
- There is sufficient opportunity for parents to share necessary information with staff and this is recorded and stored to protect confidentiality.
- Key persons support parents in their role as the child's first and most enduring educators.
- Key persons regularly share their child's progress and any concerns if they arise.
- Key persons work with parents to carry out an agreed plan to support a child's special educational needs.
- Key persons work with parents to carry out any agreed tasks where a child protection plan is in place.
- As far as possible the service is provided in a flexible way to meet the needs of parents without compromising the needs of children.
- Parents are involved in regular assessment of their child's progress, including the progress check at age two.

- There are effective means for communicating with parents on all relevant matters and 10.2 Complaints procedure for parents and service users is referred to when necessary. This may be face to face. Telephone or email.
- Every effort is made to provide an interpret for parents who speak a language other than English and to provide translated written materials.
- Information about a child and their family is kept confidential within the setting. The exception to this is where there is cause to believe that a child may be suffering, or is likely to suffer, significant harm, or where there are concerns regarding their child's development that need to be shared with another agency. Parental permission will be sought unless there are reasons not to, to protect the safety of the child.
- Parental consent is sought to administer medication, take a child for emergency treatment, take a child on an outing and take photographs for the purposes of record keeping.
- Parents' views are sought regarding changes in the delivery of the service
- Parents are actively encouraged to participate in decision making processes via the Board of Trustees.

### **Agencies**

- We work in partnership or in tandem with local and national agencies to promote the wellbeing of children.
- Procedures are in place for sharing of information about children and families with other agencies.
- Information shared by other agencies (third party information) is also kept in confidence and not shared without consent from that agency.
- When working in partnership with staff from other agencies, individuals are made to feel welcome in the setting and professional roles are respected.
- Staff follow the protocols for working with agencies, for example on child protection.
- Staff from other agencies do not have unsupervised access to the child they are visiting in the setting and do not have access to any other children during their visit.
- Staff do not casually share information or seek informal advice about any named child/family.
- We consult with and signpost to local and national agencies who offer a wealth of advice and information promoting staff understanding of issues facing them in their work and who can provide support and information for families.

### **Schools**

- Settings work in partnership with schools to assist children's transition.
- The setting manager actively seeks to forge partnership with local schools with the aim of sharing best practice and creating a consistent approach.
